Lenox-Martell is your source for the quality water your guests desire and your operation needs.

Lenox-Martell is your source for the most recognized name in foodservice water filtration *Everpure*. For over 75 years *Everpure* has been manufacturing water filtration systems improve the water of national restaurant chains worldwide and we want to bring you that same expertise.

Poor quality water can result in a poor guest experience, poor tasting water or fast-melting ice. What's more, if you don't ensure you have the best water possible, you may be experiencing unnecessary equipment wear and premature equipment failure.

By partnering with Lenox-Martell and Everpure your guests will have the best quality beverages and ice and your equipment will perform at its peak.

Lenox-Martell will supply and install all necessary hardware and miscellaneous fittings including single head unit at **NO COST**. Filters will automatically be changed quarterly at the price of the filter only. There is **NO COST** for labor to change filter.
