

YOUR BEST VALUE FOR
FROSTING AND COOLING

A TRADITION O

Perlicks FR and BC series glass frosters and bottle coolers carry on the tradition of excellence that you've come to expect from Perlick. Thick wall construction and the use of heavy gauge metals throughout make these cabinets as durable as any Perlick cabinet ever made. High efficiency compressors combine with more

Model shown: FR36SS

GLASS FROSTER VALUE ADDED FEATURES

Multiple functions — Super-chilling for liquor bottles and salad plates.

Push button defrost system — Push a button to activate a 6 hour defrost cycle saving time required to manually defrost the cabinet. interior floor drain removes melted ice during the defrost cycle.

2" Foamed-in-place insullation — Foamed-in-place walls save on energy costs and add strength.
A PERLICK EXCLUSIVE!

24 Inch dimension — 24" front to back dimension matches depth of stainless steel.

Dependable expansion valve system — For quicker pull-downs and dependable efficient cooling.

Always raising the bar.

F EXCELLENCE

insulation to produce the most energy efficient cabinets in the market today. More compact compressor compartments give the FR and BC series cabinets more interior capacity than other coolers or frosters. And all this performance and quality comes at a much lower price than you would expect.

Stainless steel interior standard

Heavy duty reinforced mullion

Durable dent resistant doors

Easy slide door

Optional bottle opener & stainless cap receiver

Stainless steel or black vinyl coated exteriors

Quiet running high efficiency compressor

Smaller condensing unit area and a slim line evaporator combines to provide the most case capacity in the market

Heavy gauge steel construction outside and in .2" foamed-in-place walls extend cabinet life, save energy and add strength

Model shown: BC72SS

VALUE ADDED BOTTLE COOLER FEATURES

Huge selection of sizes — Offering more flexibility in bar design.

Low-temperature models available — Low-temperature models available in 4, 5, and 6 foot models for those who love their alcoholic beverages as cold as possible. Holds product at approximately 30° degrees F. (Not recommended for storage of water or soft drinks).

2" Foamed-in-place insulation — Foamed-in-place walls save on energy costs and add strength. A PERLICK EXCLUSIVE!

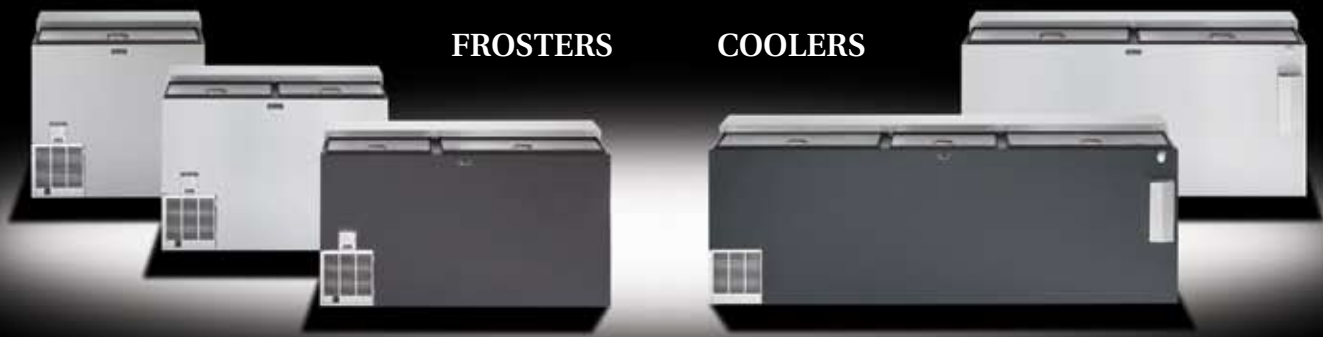

24 Inch dimension — 24" front to back dimension matches depth of stainless steel.

Reliable high-efficiency refrigeration system — Unique design chills from the top down.

Always raising the bar.

MORE CHOICES

FROSTERS

COOLERS

MORE EFFICIENT... The BC/FR series coolers and frosters are the most energy efficient cabinets we have ever made. They provide up to 33% increase in insulating R value results in a 12% reduction in heat gain. Up to 73% increase in efficiency on BC series bottle coolers and up to 50% increase on FR series glass frosters as measured in BTU per Watt. All BC series bottle cooler refrigeration systems are designed to run frost free without the need for energy consuming defrost heaters. All FR series glass frosters have automatic defrost cycles that begin at preset times and end when the evaporator reaches a predetermined temperature. The evaporator heater is only on as long as needed. The FR series glass froster's pushbutton, overnight defrost cycle shuts down the compressor and automatically turns it back on six hours later. This energy saving feature not only allows any ice buildup on the glasses to melt but it also assures that the evaporator is free of efficiency reducing ice buildup even in the most extreme environments.

FROSTERS... Available with black, stainless steel front and sides or all stainless steel finish. Models available in 2 ft., 3ft, 4 ft. and 5 ft. lengths.

ACCESSORIES INCLUDE:

- ◆ Nesting shelves
- ◆ Roller baskets (All models except 2ft.)
- ◆ Full length bottle rails
- ◆ Interior light (factory installed)
- ◆ Legs, casters & roller kits

BOTTLE COOLERS... Available in the same finishes as left. Models available in 2 ft., 3ft, 4 ft., 5 ft., 6 ft., and 8 ft. lengths

ACCESSORIES INCLUDE:

- ◆ Bottle opener and receiver
- ◆ Bin dividers with support brackets
- ◆ Nesting shelves
- ◆ Floor racks
- ◆ Roller baskets (All models except 2ft.)
- ◆ Low temp options (4 ft., 5ft., & 6ft. only) for Red and White Wine
- ◆ Full length bottle rails
- ◆ Door locks
- ◆ Interior light (factory installed)
- ◆ Legs, casters & roller kits
